## PROJECT AIMS

**INCLUDEME organises** mobility for future teachers within the area of practical training. It attempts to ensure success by pairing up two trainees that cooperate while teaching the same subjects; by mentors supervising the activities of the trainees and through guiding materials used during the internship. In addition, **INCLUDEME** incorporates aspects of European politics and culture as part of the practical training.

**INCLUDEME intends** to deepen the discussion about the different methods of teaching through practical training and hence an exchanging of ideas with peers and mentors.

## PROJECT PARTICIPATION

Would **YOU** like to take part and

- cooperate with a fellow trainee and prepare lessons together?
- get to know and prepare lessons in a different European country?
- improve your language skills?
- encourage and promote openness, appreciation for being an EU citizen in peers, students and pupils?

**INCLUDEME decides** via the individual institutions on the content, the stay, and the way the programme and internship is conducted.

During the four week practical training the trainees work together with their fellow European peers: The first week together in their own country, followed by two weeks in their partner's country by themselves. At last, they work the fourth week together in their partner's country.

**INCLUDEME offers** the opportunity to have discussions on European politics through the cooperation with political institutions.

- experience and get to know the culture as well as the educational system of another EU country?
- contribute to European integration?
- visit political institutions and have discussions with political delegates?

**INCLUDEME gives** you this opportunity through direct contact in the participating EU countries and active participation at their schools.
